

# Lowest Price Guarantee

If you receive a price quotation from a competitor that is lower than AirRite's current quoted price, on an identical item and service, just show us the quotation and we will match it.

Our price-match guarantee is good on all of our installed products. The products to be price matched must be from a licensed company. The estimate must be for the same quantity, quality and installation. Additionally, the item must be the identical brand name and model number with the same included equipment, services and accessories. Price matching will occur for products and services quoted by our competition excluding used, non-stocks, custom, discontinued, damaged or close-out items.

AirRite reserves the right to verify another company's product availability and price before issuing a price match. AirRite reserves the right to limit price matching to only those companies authorized by the manufacturer to sell the product.

AirRite's lowest price will be determined after all additional discounts and rebates have been applied. A product that comes with a free or discounted item does not qualify for a price match.

AirRite will price match another company's final price after deducting any immediate savings offer.

AirRite's price matching is not applicable if the other company does not offer a manufacturer's rebate with its products.

AirRite may limit the quantity of an item that may be price matched and reserve the right to limit quantities sold to a Customer. For additional information, please call AirRite at 817-921-0229.

If you find a current published lower price that you feel qualifies for a price match, please call our Customer Service Department or send an email to [sales@airrite.com](mailto:sales@airrite.com) and fax our Customer Service Representative a copy of the quotation along with the expiration date of the offer. This policy is subject to change without notice. For additional details, please call us. This offer expires 14 days after the estimate date .

# What is the AirRite Lowest Price Guarantee?

## How does the AirRite Lowest Price Guarantee work?

If you find a lower price, anywhere else on a new identical item or an installation service, just show us the lower price estimate when you receive your estimate from AirRite. Our pricing guarantee is valid for 14 days following the date printed on your AirRite estimate.

## Which items and services does AirRite price match?

Almost everything we sell and install. The item must be identical, including model number, components and U.S. warranty. For service plans, the plan provider, coverage and terms must be the same. The item must be in stock and available for purchase and installation at the price listed on the estimate from a licensed, authorized US reseller, whose authorization we reserve the right to verify.

## Which items and services aren't available for price-match?

We don't match our prices to those on other companies' web sites or to companies that are not licensed to provide heating and cooling installation services in Tarrant County, Texas. In addition, we don't price match our third-party providers' products and services, items sold on auction sites or at local or special events (e.g., grand opening, anniversary or liquidation sales). Further, we don't price match taxes and typographical errors.

## How do rebates and coupons contribute to the AirRite price?

We'll deduct any available AirRite coupon and manufacturer rebate from the AirRite price to arrive at a net price. For example, if you buy an item from us for \$100 and our manufacturer offers a \$20 rebate, the net price is \$80. Therefore, if another company's price is \$80 or more, we will not match the price.

Another example: if you buy an item from us for \$159 and you have a \$30 coupon, the net price is \$129. If for some reason we are unable to price match another company's proposal, we will provide you with \$250 in AirRite Cashiers Certificates upon the proof of the installation.

## Will AirRite match another company's price when combined with an instant rebate, mail-in rebate, gift check, or gift card, or free or discontinued item?

We'll match another company's final price after deducting any rebate or market value of a free or discounted item. If another company offers a product that comes with a mail-in rebate, gift check, gift card, or an equivalent, we will match only the price you pay at the point of purchase and will not take the mail-in rebate, gift check, gift card or equivalent into account. If another company offers a product that comes with a free or discounted item and AirRite does not carry the free or discounted item, we will match only the price you pay at the point of purchase and will not take the free or discounted item into account.

## Are installation charges, refrigerant reclaiming, equipment disposal and other charges included in the price match?

Yes. When we compare our price to another company's price, all equivalent and necessary charges will be included. If the other company's necessary charges are not supplied, we will use our regular low prices to determine the other company's final price.

## Are quantities limited on price-matched products?

We may limit the quantities of price-matched items and services, particularly if the other company does. In addition, we reserve the right to limit quantities sold to a customer.
